The Philippine Public Sector Accounting Standards

- I. **Adoption of Accounting Standards for Public Sector**
 - **Authority for the Adoption**

COA Resolution No. 2014-003 dated January 24, 2014 entitled "Adoption of the Philippine Public Sector Accounting Standards" upon the mandate of the COA to exercise exclusive authority to promulgate accounting rules and regulations under Section 2(2), Article IX-D of the 1987 Constitution and under Section 25(4), Chapter 2 of the State Audit Code (P.D. 1445).

PPSAS

The Philippine Public Sector Accounting Standards

- Rationale for the Adoption

. To harmonize the accounting standards under COA Circular 86-263 dated October 16, 1986 and other issuances of the COA, to the extent possible, with the current public sector accounting standards;

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

. To align accounting standards in the public sector (PPSAS) with the prevailing international standards (IPSAS), provide quality accounting standards thereby enhancing the quality and uniformity in financial reporting by Philippine public sector entities, and ensuring accountability, transparency and comparability of financial information with other public sector entities around the world.

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

- Manner of Adoption

The Public Sector Accounting Standards Board (PSAcSB) under the Office of the COA Chairman created under COA Resolution 2008-012 dated October 10, 2008 to assist the COA in formulating and implementing public sector accounting standards, recommended the adoption of the International Public Sector Accounting Standards (IPSAS) to be referred to as the Philippine Public Sector Accounting Standards (PPSAS).

PPSAS

The Philippine Public Sector Accounting Standards

- Applicability and Effectivity of the PPSAS

The PPSAS shall apply to all National Government Agencies (NGAs), Local Government Units (LGUs) and Government-Owned and/or Controlled Corporations (GOCCs) **NOT** considered as Government Business Enterprises (GBEs). Accounting Standards for GBEs are those in the Philippine Financial Reporting Standards (PFRS) and relevant standards issued by the Financial Reporting Standards Council, Board of Accountancy and Professional Regulations Commission.

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

For NGAs and GOCCs **NOT** considered as GBEs, the PPSAS took effect in CY 2014 while for LGUs, in CY 2015. This means that accounts and financial reporting of NGAs and GOCCs **NOT** considered GBEs are PPSAs compliant effective CY 2014 while those for LGUs, in CY 2015.

What is a Government Business Entity (GBE)

A GBE is an entity that has **ALL** the following characteristics:

- a. is an entity with the power to contract in its own name;
- b. has been assigned the financial and operational authority to carry on a business;
- c. sells goods and services, in the normal course of its business, to other entities at a profit or full cost recovery;

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

- d. is not reliant on continuing government funding to be a going concern (other than purchases of outputs at arm's length); and
- e. is controlled by a public sector entity.

/dmalagon

PPSAS

PPSAS

The Philippine Public Sector Accounting Standards

II. How are the Philippine Public Sector Accounting Standards (PPSAS) developed:

In either of the following manner, the PPSAS were developed:

a. by adopting the International Public Sector Accounting Standards (IPSAS) issued by the International Public Sector Accounting Standards Board (IPSASB). The accounting treatment and original text of the IPSASs and the approved amendments thereof unless there is a significant accounting issue that warrants departure are adopted and maintained by the Public Sector Accounting Standards Board (PSAB) ; or

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

b. by developing a specific accounting standard of PPSAS to deal with a specific accounting issue that is either not comprehensively dealt with in an existing IPSAS or for which an IPSAS has not been developed by the IPSASB.

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

III. Even if the IPSAS were translated almost in its entirety into PPSAS, the following points were considered by the PSASB in developing the PPSAS which should guide the users of the PPSAS:

a. Application of the IPSAS. Before the IPSAS were adopted, they were evaluated and assessed to determine their suitability and applicability under the Philippine setting.

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

b. Exposure of PPSAS to stakeholders. There was a period of time when the draft of the PPSAS was exposed by the PSASB to all interested parties including COA officials and auditors, agency finance personnel, oversight agencies, professional organizations, academe and other stakeholders for comment and these comments were eventually considered where appropriate.

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

c. Conflict between IPSAS and Philippine laws. If there is an accounting principle or a significant element of a disclosure requirement contained in IPSAS which is in conflict with Philippine laws, rules and regulations, the conflict is considered a fundamental issue and has to be resolved to the end that the accounting principle or disclosure maybe changed to conform with the laws, rules and regulations.

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

d. Deviation of IPSAS from Philippine regulatory or legislative environment. A Philippine Application Guidance (PAG) shall be issued to the standards in the IPSAS when they deviate from Philippine regulatory or legislative environment. As it is now, PPSAS standards were covered with Philippine Application Guidance (PAG).

/dmalagon

PPSAS

The Philippine Public Sector Accounting Standards

e. Numbering of standards in the PPSAS. The PPSAS is assigned the same number with the IPSAS equivalent to maintain the link, e.g. IPSAS 1 and PPSAS 1 both deal with Presentation of Financial Statements. In the event that a PPSAS is developed and there is no IPSAS equivalent, the standard will be assigned a number in a series of PPSAS starting with 101. When the IPSASB subsequently issues the equivalent standard as an IPSAS, the 100 series PPSAS will be withdrawn and reissued as a PPSAS with the IPSAS number. Standards in the PPSAS have equal authority regardless of the numbering used.

f. Disclosure requirements in the PPSAS. Disclosure requirements may be amended when the amendments are regarded as being significant for improving fair presentation.

IPSAS

International Public Sector Accounting Standards

- **International Public Sector Accounting Standards (IPSAS)** are a set of accounting standards issued by the IPSAS Board for use by public sector entities around the world in the preparation of financial statements. These standards are based on International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

/dmalagon

IPSAS

International Public Sector Accounting Standards

- **IPSAS** are accounting standards for application by national governments, regional (e.g., state, provincial, territorial) governments, local (e.g., city, town) governments and related governmental entities (e.g., agencies, boards and commissions). IPSAS standards are widely used by intergovernmental organizations. IPSAS do not apply to government business enterprises.

/dmalagon

IPSAS International Public Sector Accounting Standards

Features of IPSAS

- There are **32 standards** on the accrual basis of accounting and one standard on the cash basis of accounting (source: IPSAS Handbook published March 2011).
- When the accrual basis of accounting underlies the preparation of the financial statements, the financial statements will include:
 - the statement of financial position (IPSAS 1),
 - the statement of financial performance (IPSAS 1),
 - the cash flow statement (IPSAS 2),
 - the statement of changes in net assets/equity (IPSAS 1),
 - the note to the financial statements, or annex (IPSAS 1).
- When the cash basis of accounting underlies the preparation of the financial statements, the primary financial statement is
 - the *statement of cash receipts and payments*.
